

Observatory Hours Spring 2015

For the Spring 2015 semester, AST191 & AST192 students may attend observing sessions Mon-Tue-Wed beginning on Mar-23, weather permitting. The last possible session will be on Wednesday April-29.

Students can find out if we are open a particular night by checking the website, <https://pa.as.uky.edu/observatory> or by subscribing to this twitter feed:

https://twitter.com/UKY_Observatory (There is an underscore between "UKY" and "Observatory.")

We will use this twitter account to only push open/closed messages. The website and the twitter feed will be updated at 8 PM. Sessions begin every half hour, i.e. at 9:00, 9:30, 10:00, and 10:30 PM. If you are late for a session, you will have to wait for the next one. Students should enter through the south door to the observatory, atop Parking Structure 2, across Hilltop from K-Lair. The outgoing phone message at the observatory is not updated and should not be used.
