

galaxy NGC 3982
Distance: 57 million light-years

NGC 3977
Distance: 260 million light-years

NGC 3972 w/ Supernova 2011by
Distance: 45 million light-years

SN2011by in blue light, near maximum luminosity.

Image combined from 4 nights of observation and
should not be used for photometric purposes.

SN2011by
